Chinook Digital - Customer Return & Refund Policy

Standard Operating Guidelines for Support Agents

1. Scope and Application

This policy governs all returns, exchanges, and refund requests processed by Chinook Media Group's Support Team. It applies universally to digital track downloads, album purchases, premium subscriptions, and legacy media items processed across our storefronts.

2. Digital Download Policy

Due to the nature of digital audio files (MP3, AAC, WAV formats), digital track purchases are generally non-refundable once the download link has been generated or streamed. However, exceptions are automatically granted under the following conditions:

- **Corrupted Media:** The audio file exhibits unplayable distortion, truncated tracks, or missing data metadata.
- **Incorrect Pricing / Billing Error:** The customer invoice reflects a charge mismatch compared to the advertised storefront price.

3. Refund Escalation Pathway

When a customer contacts support regarding a billing error, the Sales Support Agent (e.g., Jane Peacock or Margaret Park) must locate the specific `InvoiceId` within the billing system. If the refund request exceeds

$50.00, it requires formal approval from Sales Manager **Nancy Edwards** before visual confirmation and credit issuance.

Appendix A: System Integration & Database Schema Sync

This documentation is fully indexed against the master transaction ledger. Any procedural updates made within this text must explicitly map to corresponding attributes within the `Customer`, `Invoice`, `InvoiceLine`, and `Track` entities. Automated ETL tasks process these alignments daily at 02:00 UTC.

Appendix B: Operational Compliance Sign-Off

Authorized corporate actions and document distribution are managed directly under executive oversight from our regional headquarters. For questions regarding system alignment, reach out to your designated Support Supervisor or General Manager.
