Chinook Media Group - Privacy & Data Protection Policy

Global Standards for User Protection, Security, and Compliance

1. Commitment to Data Privacy

At Chinook Media, user security is paramount. We implement strict safeguards to fully protect the personal details, purchasing records, and interaction matrices of our global user base across all digital channels.

2. Information Collection and System Utilization

We process standard contact metadata (names, billing addresses, country codes) exclusively to process transactional invoices, verify regional licensing regulations, and optimize catalog Delivery Systems.

3. Data Retention and Deletion Rights

Users maintain full authority over their personal profiles. Account closure requests will result in complete anonymization of direct identifiers, while historical invoice line totals are retained purely for aggregated accounting metrics.

Appendix A: System Integration & Database Schema Sync

This documentation is fully indexed against the master transaction ledger. Any procedural updates made within this text must explicitly map to corresponding attributes within the `Customer`, `Invoice`, `InvoiceLine`, and `Track` entities. Automated ETL tasks process these alignments daily at 02:00 UTC.

Appendix B: Operational Compliance Sign-Off

Authorized corporate actions and document distribution are managed directly under executive oversight from our regional headquarters. For questions regarding system alignment, reach out to your designated Support Supervisor or General Manager.
